## Education

---

**BML Munjal University, Gurugram**, B.Tech in Computer Science and Engineering

## Experience

---

- Worked on multiple course and self-initiated projects applying concepts of data structures, algorithms, databases, and web development.
- Implemented real-world problem solutions using Python, SQL, and Web Technologies, focusing on clean code and modular design.
- Gained hands-on experience in debugging, testing, and optimizing code through continuous experimentation and refinement.

## Projects

---

### Servix

- Built a service request management system using SLA rules to auto-assign priority, deadlines, and escalation paths.
- Ensured accountability by triggering automatic escalation to higher authorities when requests exceed SLA thresholds.

### Deadline Buddy

- Built a task management system to create, manage, and track tasks with user-defined deadlines.
- Improved productivity by centralizing task planning and monitoring upcoming and overdue tasks.

## Technical Skills & Interests

---

**Technical Skills:** HTML, CSS, Javascript, React.js, Node.js, Express.js, MongoDB

**Tools/Technologies:** Git, GitHub, VS Code
